LANGAUGES

Arabic - Native

English - Intermediate

EDUCATION

University of Bahrain

Bachelor of Science in Software Engineering

2022 – Present

CGPA: 2.95

MCGPA: 3.07

ACADEMIC PROJECTS

University Coursework Projects

- Developed academic projects related to software engineering, programming, and system design.
- Applied software development concepts including requirements analysis, design, implementation, testing, and documentation.
- Completed practical coursework in mobile application development, software testing, networking, and parallel computing.
- Worked on individual and team-based assignments to strengthen collaboration and communication skills.

TECHNICAL SKILLS

Programming Fundamentals

Database Fundamentals

Languages & Web: HTML, CSS, JavaScript, Dart

Frameworks/Tools: Flutter

Core Concepts: OOP, Data Structures, Algorithms, Software

Testing, Networks, Operating Systems, Parallel Computing,

Software Requirements Analysis, Software Design and Architecture

SOFT SKILLS

Teamwork

Communication

Problem Solving

Time Management

Adaptability

Fast Learning

CERTIFICATIONS

Fundamentals of Accelerated Computing with Modern CUDA C++, NVIDIA, December 2025

Parallel Computing with MPI, University of Colorado Boulder via Coursera, November 2025

Getting Started with Flutter & Dart, Packt via Coursera, October 2025
